

ARRI^{ARRI}

ALEXA PLUS

New at METRO FILM

The ALEXA Plus is an upgrade to the ALEXA camera. It shares ALEXA's exceptional image performance, simplicity of operation, reliability in extreme environments and versatility of workflow

New features:

- Built-in position and motion sensors
 - Can be exchanged without camera disassembly
- Built-in remote control features
 - ARRI Wireless Remote System (WRS) functionality
 - Real-time wired/wireless remote control of lens functions, camera REC/STOP
- Built-in ARRI Lens Data System (LDS)
 - Lens mount incorporates new LDS contacts
 - Numerical lens data and depth of field display in viewfinder and MON OUT
 - Lens metadata in ProRes, HD-SDI and ARRIRAW
 - Easier speed/iris ramps
 - Lens Data Archive (LDA) for use with non-LDS Lenses
- Lens synchronization for 3D
- A second Mon Out (1.5G HD-SDI)
- A third RS accessory power output
- Quick switch BNC connectors
